Resolve IRS Back Taxes

How to resolve IRS Back Taxes

If you owe the IRS back taxes, you are not alone. Nearly 20 percent of Americans have past due taxes. Even though the problem is not uncommon, you want to resolve your past tax debt before too long. The IRS has 10 years from the date the tax is assessed to collect past due taxes. The amount you owe will accrue interest and include penalties.

Options to resolve past due taxes

The best way to resolve IRS back taxes is to pay them in full. If you can't pay the full amount, you have back tax relief options

Installment Agreements

You may be able to resolve your past due taxes through a monthly installment plan. The IRS will assess your income to determine if you qualify for monthly payments. If you make too much or too little money, the IRS may not grant an installment plan for back tax relief.

A partial payment installation plan is sometimes possible but only if your income is too low and you have no assets to liquidate. The IRS will take a portion of your past tax debt paid back over a period of time.

In either installment plan, the statute of limitations does not apply. You'll have to pay until you resolve your IRS back taxes. Interest and penalties may continue to accrue.

Offer in Compromise

Back tax relief may be available through an offer in compromise (OIC). You settle your IRS back taxes for less than you the full amount you owe. The IRS will only accept an OIC when you owe back taxes if you cannot pay your past tax debt in one lump sum or through a payment plan over four or five years even if you sold all your assets.

Currently Not Collectible

You may qualify for Currently Not Collectible status if you can prove you are unable pay IRS back taxes. The IRS will assess your financial situation each year. You will not be in collectible status, but the statute of limitations still will be in effect. If the IRS cannot collect your past tax debt within the 10-year period, the agency will waive debt your past due taxes.

Bankruptcy

Filing for bankruptcy may free you of your IRS back taxes. However, bankruptcy laws may only eliminate past due taxes older than three years.
